

Ejem Topologia Metrica

Ejemplo 1 (Topología métrica). Sea (X, d) un espacio métrico. Entonces, por la **prop-con-abiertos-es** el conjunto $\mathcal{T} := \{G \subset X : G \text{ es abierto}\}$ es una topología de X que se llama la *topología métrica* de X o la *topología inducida* o *generada* por la métrica d .

Referenciado en

- Topología discreta
- Espacio topológico metrizable

Temporary page!

L^AT_EX was unable to guess the total number of pages correctly. As there was some unprocessed data that should have been added to the final page this extra page has been added to receive it.

If you rerun the document (without altering it) this surplus page will go away, because L^AT_EX now knows how many pages to expect for this document.
