

Cor norma p no prod interno

Corolario 1. *Sea $p \neq 2$, entonces la norma $\|\cdot\|_p$ en $\mathbb{R}^n$ o $\mathbb{C}^n$ no viene inducida por ningún producto interno.*

Demostración: Por el teo-prod-interno-iff-identidad-paralelogramo/??, basta con ver que $\|\cdot\|_p$ no cumple la identidad del paralelogramo. ■

Temporary page!

L^AT_EX was unable to guess the total number of pages correctly. As there was some unprocessed data that should have been added to the final page this extra page has been added to receive it.

If you rerun the document (without altering it) this surplus page will go away, because L^AT_EX now knows how many pages to expect for this document.
