

Caracterización de una subvariedad diferenciable por un cubrimiento por abiertos

Corolario 1. *Sea M una variedad y $W \subset M$ con $\{A_\alpha\}_{\alpha \in I}$ un cubrimiento por abiertos de W , entonces W es una subvariedad diferenciable de M*

$$\iff \forall \alpha \in I : W \cap A_\alpha \text{ es una subvariedad diferenciable de } A_\alpha.$$

Temporary page!

L^AT_EX was unable to guess the total number of pages correctly. As there was some unprocessed data that should have been added to the final page this extra page has been added to receive it.

If you rerun the document (without altering it) this surplus page will go away, because L^AT_EX now knows how many pages to expect for this document.
